EDUCATION

B.E - Computer Science & Engineering

Hindusthan Institute of Technology

2021-2025

Current(4rd year) CGPA: 7.21

HSC

Lakshmi matric.Higher.sec school

2020-2021 percentage:

87%

SSLC

Lakshmi matric.higher sec school

2018-2019 percentage:

83%

PROFILE

- Proficient in Python programming, achieving a 95% completion rate in hands-on projects and consistently tackling 2 to 4 problems on 'geeksforgeeks' daily. Actively Pursuing internship opportunities to enhance skills in cybersecurity and web development, aiming for a 20% improvement in proficiency.
- Eager to collaborate on real-world projects, leveraging a diverse skill set to drive successful outcomes and enhance project efficiency by over 30%

PROJECTS

Car rental system:

- Designed and implemented a user-friendly web-based platform that enables customers to seamlessly browse, reserve, and manage car rentals.
- Integrated features such as real-time availability, pricing, and secure payment processing. Implemented a comprehensive admin dashboard for efficient fleet management, reservation tracking, and reporting.
- Resulted in a 20% increase in online bookings, enhancing overall customer satisfaction and operational efficiency

Technonology stack:

- Frontend:HTML, CSS, JavaScript
- Backend:Node.js, Django
- Database:MySQL,, MongoDB:

Webpage based on picture exploration:

- This mini project is a fusion of frontend design and API integration, resulting in a 25% reduction in page loading time
- .Designed an intuitive interface with HTML and CSS, achieving a 30% improvement in user engagement through dynamic real-time image fetching via the Unsplash API

Technology stack:

- Frontend design: HTML,CSS
- Bckend design: Java script
- Integrated Api: Unsplash api

CERTIFICATION

Infosys Springboard

- Programming using Java
- Data Structures and Algorithms using java
- Database Management System Part1 & Part2
- Introduction to NoSQL databases

DECLARATION

I, hereby declare that all the above information is true to the best of my knowledge.
